

# Tissue Box Guitar

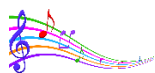

## Supplies you will need

- Empty Tissue Box (the long kind)
- Paper Towel Tube
- Rubber Bands
- Tape
- Pencil
- Supplies to decorate your guitar

# How to make your Tissue Box Guitar

	<p><b>Step #1</b> Remove any plastic left in the tissue box opening. Take the rubber bands and put them around the tissue box lengthwise (different widths of rubber bands will give you different tones when you strum!).</p>
	<p><b>Step #2</b> Take a pencil and put in under the rubber bands on one side, near the edge.</p>
	<p><b>Step #3</b> Take the paper towel tube and tape it to the other side! The paper towel tube is the neck of the guitar.</p>
	<p><b>Step #4</b> Decorate your guitar with paper, stickers, paint, and anything else you want!</p>

**Now let the music begin...  
Rock out with your new guitar!**
